THE CALIFORNIA POWDER WORKS,

230 California Street,

SAN FRANCISCO,

Manufacture and have constantly on hand

SPORTING, MINING, and BLASTING POWDER,

A superior quality, fresh from the mill. It is being constantly improved and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way
Superior to Any Other Powder
In the market. We have been awarded
successively

Three Gold Medals!

At the MECHANICS' INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER,

Thus making it vastly superior to any other compound now in use

Circular containing a full description of this Powder can be obtained on application at the offices of any of our agents.

BANG! BANG!!
The First Gun of the Battle is Touched Off.

The Walker Lake Bulletin, of October 8th, says:
The first gun of the campaign of 1890 was fired in Hawthorne last Thursday night by the Republican party.

According to the advertised announcement, there was a mass meeting. Owing to the sudden illness of Jas. A. Stephens, Mr. Sardis Summerfield, of Carson, was obliged to pack his grip at a moment's notice and accompany the candidates. However, he made a pleasing and impressive speech. He briefly reviewed the political issues of the day and gave a short resume of the candidates on the State ticket.

R. K. Colcord was introduced and spoke tersely on the course he would pursue if elected. Pledged himself to do his utmost to further the mining interests by advocating liberal mining laws and also to labor for the reclamation of arid lands and the storage of water for irrigation. He further said that he was not an orator and that he was not a rich man; but though he was comparatively poor, there was no man on earth who owned any portion of him, or who could use him for any unjust purpose. Mr. Colcord was warmly applauded.

"Honest John" Egan spoke a few words. Said he hoped to be next Treasurer, and that he would guard the money as a vigilant officer should.

John E. Jones gave a brief resume of his labors while in office, and they certainly entitle him to re-election.

With three cheers for the ticket the first Republican meeting of the campaign closed.

The party visited Aurora on Friday and Candelaria on Saturday. P. M. Bowler accompanied them as orator. Mr. Summerfield being obliged to return to Carson.

THE WHITE CAPS.

Every week comes news from different sections of the country of the brutal treatment of some one by the White Caps. The State Governments in every section where these ruffians commit their outrages, should make a determined effort to rid the country of their presence. The crimes of Jack the Ripper are not more revolting in many respects than the deeds of these out-throats, and there is no punishment in the power of the law too severe for many of them. They have forfeited all claim to the consideration of humanity as they themselves have murdered and tortured innocent and guilty alike, without the least semblance of pity.

JONES IN THE ASCENDANCY.

The Silver State says:
The contest for State Senator in Washoe county, resulted in favor of Foley in the Republican Convention. The fight in reality was between the Jones and anti-Jones faction of the Republican party. The Joneses championed the cause of Foley and the Gazette the Opposition. The feeling between the factions was much more intense and acrimonious than between opposing political parties, as it was wholly of a personal character.

The nomination of Foley is a victory for Senator Jones and shows that his friends are in the ascendancy in the Republican party in Washoe county.

CHAUNCEY DEPEW.

He is Beaten for the Nomination of Mayor of New York.

The Republican County Convention in New York met Tuesday, and by a vote of 186 to 43, refused to nominate Chauncey M. Depew for Mayor. It was a battle straight out against the fusionists. It was an angry, turbulent and at times almost riotous contest.

The fusionists won, and Mr. Depew was beaten. Mr. Depew was not present, though he had been elected a delegate, and did not know that his name was to be used. Had he known it, he doubtless would have forbidden its use.

Surveys of the Burlington.

UNION, (Or.), October 7.—A corps of engineers are in the Blue mountains, thirty miles west of Union, making a preliminary survey across the mountains in the interest of the Burlington and Missouri River Railway to extend its road to the Pacific Coast, and that the terminus will probably be somewhere on Puget Sound.

Mormons in Mexico.

The agent for a large Mormon colony is in the City of Mexico trying to buy land near the frontier. The Government will not interfere so long as the laws are obeyed.

A circular that created much comment was read in the Catholic churches Sunday throughout the Covington, (Ky.) diocese. It was in effect that Odd Fellows, Knights of Pythias, Knights of Honor and other secret societies, except the Masonic Order, are no longer barred from the Catholic Church.

A copper vein 150 feet in width has been discovered in Tulare county. Assays have shown that the product assays 18 to 30 per cent pure copper and \$107 in silver per ton. It is claimed that the find is as rich as any of the Lake Superior mines.

The vote that Washoe county will give in favor of a Constitutional Convention makes it certain that the people will be called upon to attend a Convention next Spring, and that State and county expenses will be reduced to a proper figure.

At Rosedale, Neb., a man entered a crowded store, and with a pistol forced the proprietor to deliver the contents of the drawer, \$250, to him. He made his escape.

WORLD'S FAIR.

WASHINGTON PARK ADDED TO THE SITE.

California Panoramic and Fruit Exhibition—The Highest Tower Ever Constructed on Earth.

CHICAGO, Oct. 7, 1890.

The past week has been auspicious for the World's Columbian Exposition. The National Commissioners have taken the city by storm. Their coming was anxiously awaited. On their arrival, like Omar of old "they came, they saw, they conquered." The delay of the site question had spurred them on to immediate action. They meant business from the instant their feet touched the city. After disposing of the appointment of a number of committees, they at once proceeded to elect a Director General. Col. George B. Davis, of Chicago, was selected on the first ballot. He was born in Palmer, Mass., in 1840, received a liberal education, entered the army in '62, was promoted to the rank of Major in '63, came to Chicago in 69 with Gen. Sheridan, resigned from the army May 1, 1871, and went into the insurance business. He was elected to Congress in 1878, served three terms, and in 1888 was elected Treasurer of Chicago and Cook county, which position he has held ever since. On account of being a local candidate it was at first thought the selection would not prove satisfactory, but on account of his marked ability to handle large bodies of men, universally considered, his selection has proven to be a happy one. Be that as it may, he was the main spirit that secured the Fair for Chicago, and to the victors belong the spoils.

The Commissioners also wanted more "site." They asked for it, and got it. In addition to Jackson Park and the Lake Front mentioned in our last letter, Washington Park has been added. They now have over 1,000 acres of the most beautiful park system to be found. Chicago has tendered her choicest spot, to the gratification of all, and now the Commissioners can return to their States with glad tidings. No longer need the live stock fraternity worry about their features of the exhibits being slighted. No amper or handsome place could have been found among their native hills. By this addition the Exposition will have the most extensive and handsome site ever occupied by any Exposition in the history of nations.

Prof. Putnam, of Harvard College, has proposed to the Directors an extensive ethnological display. His object is to erect a great ethnographical museum, the exterior to be a fac-simile of the great stone structures, which in pre-historic times were numerous in Mexico and Peru. Here he would gather specimens of all relating to pre-Columbian times. This would include a collection of all the relics from the first traces of man in America, when he lived south of the great ice sheet, which covered the continent north of New York, Ohio, Mississippi and Minnesota. In the collection would be skeletons of the mammoth, mastodon, reindeer, the musk ox and other northern animals which were living at that early period.

Following this would come an exhibit of the Eskimo of the Arctic regions, showing their winter and summer houses, sleds, tents, weapons, works of art, models of men, women and children made from casts taken and colored from life, and dressed in native costumes. A similar collection would be taken from the West Indies and Eastern portions of North America at Columbus' time. By this plan we could contemplate the condition and walks of primeval man, which would be a great object lesson for the millions of visitors to study and ponder upon. To all this would be added a collection of human skulls and skeletons from all parts of America, so that the differences and resemblances in the structures of the peoples shown by their bony relics could be compared.

Mr. E. W. Keeler, of San Francisco, has devised a plan for California's contribution to the Exposition in the novel feature of an enormous elliptical panorama. This is about his description of it: Extending from end to end will be a series of mountains formed of rocks and soil and partly covered with shrubs. Skirting this diminutive mountain chain will be an elevated railroad, 20 feet from the ground, permitting visitors to view from the cars the paintings of California landscapes on the walls, as they are passed in succession. The elevated track will be reached by cars gradually ascending through a tunnel at one end. In this tunnel, mining operations can be shown. When the tunnel has been passed, Oakland, Alameda, San Francisco, Mount Tamalpais, and the Golden Gate will first appear. The cars will pass through the body of one of the "big trees." At appropriate points men will be seen gathering fruit and engaged in other principal industries of the State. Under all this will be a vast enclosure capable of holding 40,000 people for concerts or protection in case of rain. The series of paintings will be about 1,800 feet in circumference.

"The Chicago Columbian Tower," which is to be erected in 1893 will be 1,500 feet high, by 480 feet at the base, constructed of steel and iron and supported by 16 great arched legs. The architecture is of modern Renaissance style and was designed by Messrs. Kinkade and Poik, of Chicago. It will require over 7,000 tons of steel and

ROYAL BAKING POWDER.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder
ABSOLUTELY PURE

6,000 tons of iron. Its estimated cost is \$2,000,000. In the center will be a large dome, 200 feet wide and 200 feet high. This is calculated for concert and theatrical purposes, and will have a seating capacity of 25,000 people. The walls and canopy will be richly decorated in oriental style. Eighteen elevators, with a capacity of 50 people each, will make twelve trips an hour. Only two elevators will run a distance of 1,250 feet. Many will take advantage of the trip. Here money will secure passage, for at least a short journey in the direction which all would like to travel. At the landing will be a large restaurant where the travelers can rest and lunch before returning to earth again. At the apex will be a great globe, 33 feet in diameter, provided with 16 powerful electric lights which will be observable 50 miles distant. Admission fee will be 25 cents; 50 cents to 400 feet and \$1 to the top. When completed it will be 500 feet higher than the Eiffel Tower in Paris, and the greatest architectural construction erected in the history of man. It will be the pride of our nation and one of the most attractive features of the great exposition.

Now that the officers have been selected, the committees appointed, the site chosen, a large amount of the subscriptions paid in, and the plans taken a definite shape, the Directors of the Exposition are ready for business. The time is short for the extensive preparations that must be made. Each opportunity must be taken advantage of. The eyes of the nation will anxiously watch the daily progress. But, with the magnificent site, and the harmony that exists between all officials, and the able officers who have the management and are conscious of the responsibility resting upon them, the Exposition is destined to even surpass in magnitude and grandeur the highest anticipations of its most sanguine supporters at the National Congress.

In our next letter we expect to describe, among other things, the national exhibits and buildings. Yours respectfully,
J. B. CAMPBELL.

NEW TO-DAY.

ELECTION NOTICE
—BY THE—
Board of County Commissioners.

General Election, Tuesday, November 4, 1890.

NOTICE IS HEREBY GIVEN THAT ON Tuesday, the 4th day of November, A. D. 1890, at the several election precincts in the county of Washoe, State of Nevada, hereinafter named, an election will be held for the following State, county and township officers, to-wit:

J. L. Wines has gone to San Francisco.

Controller Mallock went below last night.

For window glass, all sizes, go to Lange & Schmitt.

L. L. Crockett returned to Incline yesterday morning.

A. H. Manning went below last night to lay in a stock of winter hardware.

Geo. Styles, proprietor of the Webber Lake hotel, has been in town a few days.

The census shows that California has increased 39.24 per cent. in the last decade.

Creed Raymond, leading counsel of the S. P. R. R., came up on last night's overland.

One census enumerator at Reno has received the voucher for his services. It is payable at the Sub-Treasury.

Judge C. C. Groatin, of Salt Lake, has been nominated by the Liberal Territorial Convention as Delegate to Congress.

Go to Lange & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Largest variety and best values.

During the week ending October 4th the Eureka & Palisade Railroad Company shipped 210 tons of ore to the Salt Lake City smelters.

Twenty-one Hollanders have just arrived at Merced, Cal., as colonists direct from Holland. They were met by a brass band and a committee of citizens.

The storm of Wednesday evening continued in the hills all day yesterday without intermission and the Sierras are robed in white. Four inches of snow have fallen at Truckee and three at Boca up to last night, and it was still coming down.

Governor F. E. Warren, of Wyoming, was in town yesterday, en route home to Cheyenne from a short trip to California. The Governor arrived in Reno Wednesday evening coming around Tahoe via Carson, and was detained here until last evening awaiting the arrival of the delayed overland. He was hospitably entertained during his stay by Senator Foley and others, and was well pleased with what he saw of Reno and surrounding country. Governor Warren has twice been the Territorial Governor of Wyoming, and at the election last month was elected Governor by a very handsome majority.

MISS SEDON RHODES.
She Comes Very Nearly Being a Nevada Girl.

All Paris is excited over the phenomenal soprano of Miss S. Sedon Rhodes, who by the way, comes very nearly being a Nevada girl. She is the granddaughter of Capt. Cook, of Reno, and her father was at one time foreman of the Gold Hill News. Miss Rhodes was born but three months after her parents left this State. The Parisian papers give her extended complimentary notices in praise of her wonderful singing. She has completely won the heart of the gay French capital, and is more of a rage than even Sybil Sanderson.

A Reno Fable.

There was a certain Reno man who built a house in an alfalfa field, which was part of an addition to that town. It came to pass that a neighbor who saw and coveted the fine growth of alfalfa, asked permission of him to mow it. The owner of the field consented, and forthwith loaned him a scythe and rake to perform the work. The mower worked long and laboriously, and the sweat stood out upon his temples. At sunset he had completed his labors, and had also the hay nicely piled that he might cart it away in the morning. That night the owner of the field, who was a prudent man, had his son quietly gather it all in and deposit it in his barn, and it sufficed their horse for many a long day. The next morning the mower was exceedingly wroth to find his alfalfa had all been blown away by a Washoe zephyr.

To the Young Republicans of Washoe County, Nevada.

Notice is hereby given that there will be a meeting of the young Republicans at the office of Baker & Wines this evening at 7 o'clock for the purpose of organizing a Young Men's Republican Club for the present campaign. Every young man who is in favor of good government and wishes to promote the success of the Republican party is respectfully invited to be present and enroll his name as an active worker in the ranks.

Signed,
L. J. COHN, H. E. HIGGINS,
W. H. DAUCHY, B. M. CUFFIN,
W. D. MCNEILLY, G. B. HEMES,
C. D. WILLIAMS, R. D. HUNSEY,
F. A. BARNES, H. C. CUTTING,
F. A. NORCROSS, C. A. NORCROSS,
O. D. VANDUZER.

The Storm.

Yesterday morning the town woke up to find a light fall of snow covering the ground, and a heavy storm in progress in the mountains, which were white with snow. The east-bound passenger yesterday morning was seven hours late, caused by the heavy snow.

Bad on Farmers.

The storm will be bad for the farmers who have part or all of their third crop down. It will doubtless be many days before the weather settles so that it can be dry enough to stack. It is estimated that 500 tons or more are down.

AERIAL NAVIGATION.

What We May Look Forward to When It Comes About.

"A Chicago syndicate have incorporated an aerial ship company, with a capital of \$20,000,000. Its feasibility has been fully demonstrated, and it is claimed that they can circumnavigate the world in five days."

The reporter read the above dispatch and forthwith began to ponder. His mind drifted away from the piles of tiresome exchanges into the bright fields of fancy. He tried to imagine the world as it would be when the navigation of the atmosphere, no longer is the dream of theorists, but the reality of daily experience. When the lightning express will be the pace of the snail, and too slow to fulfill the wants and necessities of men. When we can break fast in San Francisco, dine in Chicago and sup at Delmonico's in New York. Life will then be worth the living. We will no longer be subject to the vagaries of the elements. If the weather is too cold or stormy this day to be agreeable, we can take the aerial transit, and in a few hours' time be basking under an umbrella beneath the rays of a tropical sun. If a lady has shopping to do, she has the markets of the world at her command. If she lives in New York, it is but a few hours' journey to purchase her bundles in Paris or Berlin. John Smith's wife can inform her husband in the morning, that after calling upon Mrs. Jones in Boston, she will go over the Atlantic to Worth's to try on her new dress. She will be back in the evening, although it may be quite late.

As the reporter thought of these things, his mind fell to wondering as to what would become of many of the institutions that are now so necessary to human welfare and a most to actual existence.

What will become of the railroads when an has superseded their iron beds? Their locomotives will have found a place in the museums of future time which may be devoted to the obsolete relics of the human arts. No longer will one be troubled with corporations or monopolies, for all the world will be man's dominion as truly as is to-day his garden plot—the field will have become too gigantic for their operation. What will its effect be upon war? There will be no war. With aerial armament, battle means the annihilation of humanity. Nations will arbitrate. What will be its effect upon Reno, Ogden and Denver? It will make them seaport towns. What will be its effect upon the McKinley bill? It will make the world free trade. Not all the powers of governments could guard the coast-line of the air. What will be its effect upon Belamy's "Looking Backward"? It will knock his dreamy theory higher than the Eiffel tower.

BURIED ALIVE.

What the Police Found Within the Walls of a Naples Convent.

A remarkable case of religious fanaticism has just been brought to light in Naples. In a secluded quarter stands the "Nunnery of the Buried Alive," that has been closed to all public knowledge and investigation for generations. The religious authorities have prescribed secrecy for the past four hundred years regarding what has happened within its walls and the character of its inmates.

The veil, however, is at last removed, and citizens are lost in amazement that such scenes could for years have been enacted in a civilized land with no note of warning sounded. The present revelation is due to the fact that a young girl, crossed in love, was incarcerated within its walls. Her parents finally became alarmed at their inability to communicate with her and appealed to the police.

The civil authorities raided the place on Saturday under an order issued by the Minister of Justice. The doorkeeper stoutly resisted, but was overpowered by the gendarmes, who soon found their way into the cells where sixteen nuns were found in a condition bordering on insanity. They were scantily covered with rags and their surroundings were filthy in the extreme. Many of the poor creatures had forgotten how to talk and were hardly human in their demeanor. The young girl for whom the quest was made was found reduced to a mere skeleton.

The establishment has been closed, and the victims removed to one of the public institutions, where they will be well cared for. The Governor has ordered the fullest investigation with a view to punishing those who shall be found to be responsible.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-awf-y

A Famine Not Impending.

The Herald correspondent in Ireland telegraphs that in the famine district general distress is looked for, but no famine, and that, in the light of uncertainty as to the failure of the potato crop, American agitation is uncalled for.

THE WORLD'S FAIR.

Letter from the Director General to the Press of the United States.

To the Press of the United States: The undersigned has been elected to the position of Director General of the World's Fair at Chicago in 1893 by the joint action of the National Commissioners and Board of Directors. In accepting this important position he accepts all its responsibilities, and trusts with the aid of the press of the country that this great international exhibition may prove to be such a success as will be creditable to the American nation. By an act of Congress it is provided that the buildings for the World's Fair shall be dedicated on the 12th of October, 1892, and the exhibition be open to visitors on the 1st day of May, 1893, and close no later than the 30th of October thereafter. Thus we have two years in which to arrange the grounds and erect the buildings and a few months additional in which to receive and place exhibits. So far as this country is concerned the undoubted fact justified in the statement, that the presentation of agricultural and stock products will be in every respect superior to any previous exhibition; also that in inventions the progress of the United States will be indicated in a most remarkable manner. There is also every reason to anticipate exhibits in large numbers from every other nation on the globe, it being estimated by practical experts that the total number of exhibits will be not less than 50,000, divided equally between the United States and all foreign nations.

It is proposed to make this exhibition especially interesting to all that relates to manufactures by the representation of the most important processes in active operation. In comparison with these will be presented the methods used in other countries 400 years since. Already there are indications that nearly every State and Territory in the Union will be fully represented, and that large appropriations will be made at the approaching sessions of the different State Legislatures. Circulars and blank applications for space will be forwarded in due season to all intending exhibitors. The undersigned would call upon the press of the United States to assist in the great international undertaking, which, if successful, will establish the United States of America as the first nation of the globe.

GEORGE R. DAVIS,
Director General.

Board of Equalization.

The County Commissioners acting as the Board of Equalization, Monday evening made the following changes in the assessed valuation of Washoe county property: Rose Jones' property, raised from \$2,700 to \$3,000; James Gault, property raised from \$2,500 to \$3,000; Murray Bros., property raised from \$1,500 to \$2,000; Frank Marino, property raised from \$1,500 to \$2,000; J. Frey, property raised from \$7,000 to \$8,000; A. Sauer, property raised from \$1,800 to \$2,500. The Central Pacific railroad bed was reduced \$1,000 per mile, or from \$15,000 to \$14,000.

The Reno Gas Works was reduced from \$8,000 to \$6,000.

A number of citations were made, but properly, further than given, was unchanged. Commissioners Hymers and McLaughlin were present, Merrill being absent.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Sarsaparilla Medicine, and is worthy your confidence.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

NOTICE.

I HAVE THIS DAY SOLD TO A. H. MANNING my plumbing tools, business and stock in trade, and would most respectfully recommend my friends and patrons to him, as I can assure them that all work entrusted to him will give satisfaction and be guaranteed, as he has nothing but first-class plumbers and tinners in his employ. W. P. JACOB.

Reno, September 13, 1890.

INSURANCE.

THE
MANHATTAN
Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even 30 times as much as has been deposited; or on the

Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he died while making these payments—even after one only has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family; and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for; thus, if one-fourth of the payments had been made, he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances, not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

Entire Property in Fee Simple

Is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus leaving the whole amount paid in and leaving the family destitute, or dependent, it offers a

Specific Bond Secured by Millions
of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company will receive prompt reply if addressed to

PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held at Virginia City, Nevada, September 4, 1890.

The record of the Republican party is its best platform. No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authority to the needs of business, none has so managed the affairs of a State as to encourage the development of a continent, none has so elevated a nation and so contributed to the happiness of man, none has so honestly and economically carried on the routine duties of office.

In all things it has been the direct opposite of the Democratic party. Grand in its ambitions, strong in its devotion to principle, it is now, as it has been from birth, the representative of all that is noblest and best in its own country and hope and promise of a better future for the human race.

Its battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the National credit, its efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization in this or any other country ever had. The names of its heroes are legion, and the deeds of its heroes are the history of the Republic. The Republicans of Nevada, in convention assembled, heartily endorse the acts of the Fifty-first Congress, which has made greater advances in correct and needed legislation than any since the war. The crime of filibustering, so often resorted to by the Democratic party for the purpose of defeating legislation and blocking the wheels of government, has been done away with by the genius of Reed, McKinley and their associates, and the offenders taught that Congressmen are paid by the people for making good laws and not bad politics. It had, by a strictly party vote, placed the silver question that will lead naturally to free coinage and disown all opposition among financiers. It has taken up the work of a readjustment of

POLITICAL.

the tariff in a patriotic and business like way, such as will protect the interests of labor and at the same time encourage capital to enterprises that will furnish it with employment at good wages. New States which were denied their rights before have been admitted to the Union, and the grip of Tammany Hall upon the Presidency broken. Insurrection have been broken up and made to obey the laws of honest commerce. Efforts are being made to prevent or punish frauds and intimidations in elections. A navy has been provided for and suitable pensions granted to prevent suffering among the sick and wounded heroes of the war. Provision is being made for the reclamation of the arid regions, where the Republican policy of free homes and free schools can be extended. The public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply sustained.

We endorse the Administration of President Harrison and commend his conservative course as striking in contrast with his predecessor in office. During the former Administration silver and wheat touched the lowest price ever known, and farmers burned their corn for fuel. Trusts were stimulated, finances disarranged, strikes prevailed, the mail service was demoralized and business of itself opposed instead of being encouraged by the methods of the Government, whose whole business should be to benefit the country. To-day silver, wheat and all the products of labor are rapidly rising, and the Democratic officials may perhaps be innocent of intentionally destroying our prosperity, but they are culpable for the results of blunders as they would be for crimes. Under the Democratic administration the Republic has been kept out of the competition of a free market and mechanized protection, agriculture is encouraged by a departure from the policy of the Government, and the law of the land is in a state of anarchy and anarchy is the result. In presenting its ticket to the voters of Nevada, the Republican party pledges its nominees to readjustment wherever it is possible in country and State expenditures.

We pledge our nominees to a system of State improvements which shall save the water now running to waste and devise means to secure its use in the irrigation of fertile lands now lying idle. We endorse the measure introduced by Senator Stewart proposing to create the land and water department for the purpose of aiding to improve our water storage and irrigating systems, and we appeal to Congress and the President to grant this much needed aid.

We endorse the course of our Senators and Representatives in Congress, and commend their efforts to establish, on a better basis, the use of silver as money, and to our uncompromising demand for the free coinage of both gold and silver and their equal status in our National currency.

WHEAT. The practice of letting mail contracts in this State to non-resident shippers, who seek and obtain such contracts only for the purpose of subletting the same has resulted in an inferior and impaired mail service.

Resolved, That our delegates in Congress be requested to procure, if possible, the enactment of a law to prevent such abuses in the future.

We are in favor of the improvement of the wages of American labor by restricting immigration from foreign countries, a thorough revision of our naturalization and land laws, the construction of naval and coast defenses, the fostering of free schools and popular education, the enforcement of a free ballot and a fair count, clarifying the duties of our country, the protection of every citizen at home and abroad, the fostering of a policy that will extend our commerce the settling of all foreign complications by arbitration, and liberal appropriations by Congress for the construction of water reservoirs and a system of irrigation.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as the coming election the question as to whether or not a Constitutional Convention will be held is to be submitted to the people, that we earnestly invite a calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party of Nevada to secure public affairs and possibly in disposing with unnecessary offices and use of expedites in adjusting salaries upon a basis of economy and shortening the session and lessening the number of members of the Legislature, in the reduction of taxation and in consolidating county offices and diminishing county exp. dues, and in this we pledge the nominees of the convention to earnestly see that the nominees of the several county conventions be likewise elected.

PLATFORM.

The Republicans of Washoe county, in convention assembled, renew their pledges of faith in and allegiance to the doctrine and principles of the Republican party, which in the future, as in the past, will continue to vote for the people the broadest and most enlightened freedom, consistent with safety to the State, and the perpetuity of our form of government.

We heartily endorse the platform adopted by the National Republican Convention at Chicago as a mainly a conservative declaration of principles suited to the necessities and demands of the people of this State, and strongly in contrast with the billingsgate and ribaldry of the Democratic platform which was presented by the Grand Jury of that party, in their recent State Convention.

We recognize in our delegation in Congress, Hon. J. P. Jones, Wm. M. Stewart and C. F. Bartine, able and efficient public servants who have been uniting in their efforts to promote the interests of the people of Nevada as well as those of the whole country, and we desire to accept of them that full record of praise which their value as servants so prominently merit.

That we commend the wise and conservative administration of President Harrison, who has redeemed the pledges so solemnly made to the people in the National Republican Platform, and has fully justified the confidence reposed in him by the franchise of the American people.

We endorse the action of the Republicans in Congress in increasing the tariff on wool, so as to encourage the production of staple hitherto imported from Grover Cleveland, in a special message recommended to be placed on the free list, and in the passage over Democratic votes of a silver bill which will increase the value of the product of our main staple from ten millions of dollars, added seventy-five millions to the value of our wheat crop, one hundred millions to the oat crop, and two hundred millions to the corn crop of the United States.

It is with the most profound sorrow that the Republicans of Nevada received the news of the death of Hon. C. D. Stevenson, late Governor of this State. We deplore his loss in the councils of the party, where he was every ready word and deed to advance his interests in every honorable way, and the whole people of the State have been deprived of the services of an honest and conscientious public servant, his family of a kind, indulgent and affectionate husband and father; and to the bereaved members of his household we extend our most profound and sincere sympathy.

It is the sense of this convention that the best way to promote and foster the upbuilding of Nevada is to provide and maintain a conservative system of low taxation, and to this end we favor the most rigid economy in every department of the public service, and the enactment of such legislation as will secure to the people of the State the lightest possible burdens, without material injury to the administration of affairs.

We demand that the membership of the Legislature be reduced to forty, their per diem to \$10 dollars per day and their mileage to actual and necessary traveling expenses in going to and from the State Capital.

We are in favor of the donation of the public lands to the State to be used for a basis of water storage and reclamation, at the same time we call attention to the fact that a large portion of our previous grant is unclaimed, and can be secured by these purposes without waiting for additional appropriations.

We are in favor of the use under wise plans and the management of the large fund of the State Treasury as a way to quicken life and stir up our great valleys, reclaiming our arid soil, making homes for the poor citizen and adding to our tax base property, and we recommend that our Senators and Assemblymen give this matter their careful attention, adopting the system which promises the greatest good to the State, giving the people the full support.

We are in favor of the acquisition, either by purchase or otherwise, of the water rights of the State, and the use of the same for the benefit of the people, without the possibility of their falling into the hands of private monopolists.

We are opposed to bundling Washoe county for any purpose until the question is first submitted to the qualified electors of the county or district upon which the bonds are to be issued for their approval or rejection.

It is the sense of the Republicans of Washoe county that a Constitutional Convention is necessary in order to secure such reforms in the public service as our small population and material resources demand, and we therefore most earnestly urge upon the voters of this county to cast their ballots in favor of such a convention at the coming election.
